Award Nomination Application Form

Personal Details:

Full Name: Litao Guo

Designation: Deputy Director/Associate Chief Physician

Institution/Organization: The First Affiliated Hospital of Xi'an Jiaotong University, Xi'an, China

Contact Information: glt02@163.com

Academic and Professional Background (100 words max):

I have been engaged in intensive care medicine for more than 18 years, successively as a resident, attending physician, associate chief physician, in-service doctor in school, master tutor. I am mainly engaged in the clinical work of intensive care medicine, especially in cardiopulmonary resuscitation, ECMO and other treatment of critically ill patients with rich clinical experience. I have more research on intelligent simulation teaching and training of first aid skills such as cardiopulmonary resuscitation. Also engaged in sepsis, cardiopulmonary resuscitation and other clinical research. Published 16 relevant research papers.

Research and Innovations:

Completed/Ongoing Research Projects:

There are more than 12 completed and ongoing research projects.

Citation Index: Published 16 relevant research papers.

Consultancy/Industry Projects: There are more than 4 completed and ongoing consultancy/Industry research projects.

Books Published (ISBN): Participated in publishing 10 books.

Patents Published/Under Process: One invention patent. Three invention patents are pending.

For submission, please visit our website at cardiology.pencis.com or email the completed application and supporting documents to cardiology@pencis.com

INTERNATIONAL RESEARCH AWARDS ON CARDIOLOGY AND CARDIOVASCULAR MEDICINE

cardiology.pencis.com | cardiology@pencis.com

Journals Published (SCI, Scopus, etc.): Published 16 relevant research papers.

Editorial Appointments: Editorial Board Member of 3 Chinese Magazines.

Collaborations:

Professional Memberships: Several societies hold positions and membership.

Areas of Research: Critical care medicine; clinical research and intelligent simulation teaching of cardiopulmonary resuscitation.

Contributions (100 words max):

I have studied cardiopulmonary resuscitation training and intelligent simulation teaching using an intelligent simulation platform. This paper discusses the method of training cardiopulmonary resuscitation (CPR) with intelligent simulation platform. Standing position, division of labor and cooperation of team cardiopulmonary resuscitation personnel. There are some clinical studies in the management of complications of ECMO therapy. Especially in the treatment of ECMO combined with massive airway bleeding, the method of early clamping artificial airway hemostasis is proposed, and the comprehensive treatment measures such as combined bronchoscopy and intervention are proposed, the treatment process is summarized and popularized, and the relevant research articles are published. It will help to reduce patient mortality.

Guidelines for Filling Out the Award Nomination Application Form

Personal Details:

Full Name: Provide your full legal name.

Designation: Specify your current job title or position.

Institution/Organization: Name the institution or organization where you are employed or affiliated.

Contact Information: Include your email address and phone number for communication purposes.

For submission, please visit our website at cardiology.pencis.com or email the completed application and supporting documents to cardiology@pencis.com

INTERNATIONAL RESEARCH AWARDS ON CARDIOLOGY AND CARDIOVASCULAR MEDICINE

cardiology.pencis.com | cardiology@pencis.com

Academic and Professional Background (100 words max): Briefly describe your educational qualifications, professional experience, and any significant achievements related to your academic or professional career within the given word limit.

Research and Innovations:

Completed/Ongoing Research Projects: State the number of research projects you have completed or are currently working on.

Citation Index: Provide information about your citation index in relevant databases such as SCI, Scopus, etc.

Consultancy/Industry Projects: Indicate the number of consultancy or industry-sponsored projects you have been involved in.

Books Published (ISBN): Specify the number of books you have published with ISBN numbers.

Patents Published/Under Process: Mention the number of patents you have published or are currently in the process of publishing.

Journals Published: State the number of articles you have published in indexed journals.

Editorial Appointments: If applicable, list any editorial positions you hold in journals or conferences.

Collaborations: Describe any significant collaborations you have been part of in your research career.

Professional Memberships: List memberships in professional organizations or societies relevant to your field.

Areas of Research: Specify the main areas or topics you focus on in your research work.

Contributions (100 words max): Describe your contributions to research and innovation, including any notable achievements, impacts, or advancements resulting from your work within the given word limit.

Proofs and Declaration:

For submission, please visit our website at cardiology.pencis.com or email the completed application and supporting documents to cardiology@pencis.com
